**TESTIMONIAL FROM WENDY WILLIAMS
CARE MANAGER OF
THE CLOUGH CARE HOME, BOLTON**

I am the manager of a 30 bedded care home for the elderly. We required the installation of a new passenger lift to replace our existing lift in 2014. The dismantling of the old lift and the installation of a new one needed to be carried with the minimum of disruption to our elderly clients. After seeing several lift companies I chose to use the services of TJ lift solutions.

TJ lifts are a family run firm and I found them to be knowledgeable and very understanding of our requirements, their quote for the work was very competitive too!!

The engineers were courteous and thoughtful. They carried out the work with the minimum of fuss and found them to be very professional. They explained everything as the work progressed and found a solution to any hiccups we or they came across. The work was completed on time. Their after care has been first class. I would highly recommend TJ lift solutions to any business requiring the services of a lift company.

Yours faithfully,

Wendy Williams
Care Manager
